Thoughtful is *beautiful*

GO TOUCH-FREE TO BE CAREFREE

TOUCH-FREE SENSOR RANGE OF
WATER CLOSETS!

EXPERIENCE DELIGHT WHEN YOU GO TOUCH-FREE.

AN AVERAGE WATER CLOSET CAN HAVE AROUND 3.2 MILLION BACTERIA PER SQUARE INCH. SOUNDS SCARY RIGHT?

GermS lurk on the flush button of a water closet whether it is a residential or a commercial space. While germs are invisible to the eye, in today's world no one needs to be reminded of the relevance of hygiene. Now more than ever, we all need to be cautious and safe for ourselves and those we love.

Keeping this in mind Hindware is proud to bring you a carefree washroom experience. Our Touch-Free Sensor Range of Water Closets have been made to ensure hygiene and comfort. Now flush easily by waving your hand above the sensor and experience the joy of a carefree life. Ideal for shared bathrooms in a home space.

Say goodbye to the fear of lurking germs and just wave your hands above the sensor to use the water closet. Remember that **#TouchfreelsCarefree**

GO TOUCH-FREE, STAY SAFE!

The touch-free Sensor Range is great for commercial spaces like malls or hotels.

These places are at a higher risk of compromising on hygiene since a lot of people end up using the washroom. For such places, the touch-free water closets are a hassle-free way to stay hygienic. It ensures peace of mind, while delivering on cleanliness without any compromise.
